1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 2, 11, 16, and 20 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Besenzoni (6,748,895). Besenzoni discloses the basic claimed structure including a ramp assembly with a pair of ramp support members 36 supporting a pair of rollers 62, the ramp having side rails with upper and lower rail members, wherein the ramp is rollingly received between the ramp support members such that the rollers are positioned between the upper rail and the lower rail members. Note that the ramp of Besenzoni is capable of being used for a pontoon boat.

3. Claims 3-10, 12-15, and 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
